Dear Mr. Gleason:

**SUBJECT: MAUI LANI VMX SUBDIVISION
TMK (2) 3-8-007:PORTION OF 151 AND 152**

This letter is intended to provide the information requested by the Federal Department of Housing and Urban Development describing the nature and limitation of the water service that will be provided to the above referenced subdivision. Please be advised that:

1. Water for domestic use and fire protection for the subject project will be from a new 12-inch water main extension from the existing 12-inch water main that is fed from the high level Iao Storage Tank owned and operated by the County of Maui.
2. The water supplied by the County of Maui Department of Water Supply is tested pursuant to EPA and Hawaii Department of Health Regulations, and has been found to meet all applicable water quality standards for a public water supply.
3. The new 12-inch water main extension will serve the area in which the proposed 78-lot subdivision and appurtenant improvements are located. Maui County has the ability to serve, and the supply of water will be sufficient to serve the needs of the subject subdivision.
