

The following has been extracted from the Final Environmental Assessment submitted for the Project to the State of Hawaii Land Use Commission in January 2005.

5. Flood and Tsunami Hazard

According to the flood and insurance rate map produced by the Federal Emergency Management Agency (FEMA), the Maui Lani Project District, including the proposed plan area, are not situated in any designated flood plain and is designated Zone "C", an area of minimal flooding. These properties are not subject to tsunami inundation. See Figure 15.
